FRIDAY, SEPTEMBER 15, 1899.

HUNGARY was not slow to give official notice that the government will not send an exhibit to the Paris exposition in 1900.

The Southern Pacific railroad company has shown a commendable spirit in the appropriation of \$50,000 for the erection of its own building at the Paris exposition next year. The building will be used for the exposition of the resources of the country tributary to its roads.

The Grand Army of the Republic boys had a lively time last week at Philadelphia. They enjoy themselves more and more every year, and look forward to the annual gathering as eagerly as the most verdant youth. Their minds revert to the days of '60 and '64 as though it were but yesterday. May their visions every remain bright, though their steps grow unsteady.

ENGLAND is the best customer of the United States. The treasury department's monthly summary for June completes the figures of imports and exports for the fiscal year, showing that more than half our exports—\$659,000,000 in total of \$2,227,000,000—go to British subjects and possessions, and that less than one-third the imports come from them. The imports from British countries were \$208,000,000 in a total of \$697,000,000.

HAVING bottled up General Fitzhugh Lee as a district police captain in Cuba, the administration sent General Joseph Wheeler over to Manila so that General Otis could place him in charge of the patrol mounting guard over a Tagalog village. But "Fighting Joe" Wheeler didn't go to the Philippines to mount guard in villages. He heard there was some fighting over there and has given Otis to understand that if he can't get into the row he will return to the United States.

THE people who call McKinley names for not withdrawing from the Philippines need some primary knowledge of constitutional law. Where has the president any right to relinquish American sovereignty over a land which congress has paid \$20,000,000 to annex? The whole question of staying there belongs to congress, and all the president has to do while congress is out of session is to preserve the prosperity and enforce the right of peaceful ownership.

YESTERDAY afternoon the world was relieved of a great strain on its nervous system. Pedlar Palmer of England was knocked out by Yankee McGovern of Ireland; and now the world can draw an easy breath and resume business. But it will only be for a brief season; for in a few weeks this country will again be thrown into convulsions of excitement over the announcement that "Kangaroo Pete" of Australia is matched to break the jaw of "Rabberneck Bill" of Chicago.

THAT was a silly act of injustice committed by the L. B. Wright company at Chicago, in discharging six French painters because of Dreyfus' conviction. The painters had been in the employ of the company for a long time and can in no manner be held responsible for their country's disgrace. There are thousands of Frenchmen in the United States who sincerely deplore the absence of that chivalric spirit which once characterized the officers of the French army, and feel keenly the shame that has been put upon La Belle France by the corrupt generals of her army.

In 1896 a sugar factory was erected at Carlsbad with a capacity of 200 tons per day, and capable of producing 4,000,000 pounds of white granulated sugar, in addition to inferior grades and molasses. The factory, during a four months' run, pays out \$25,000 in wages and \$85,000 for beets to farmers, to say nothing of the money paid out for freights, coal and other necessities. Not only the sugar beet can be raised successfully in this locality, but fuel, limestone and water are cheap, and in quality superior to anything in that line found in most districts where sugar beet raising has been made a success. The day is not far distant, therefore, when these advantages will outweigh the advantage of of bounties paid by other districts, and New Mexico will become one of the leading sugar producers of the United States.—Albuquerque Citizen.

## Little Pimples Turn to Cancer.

Cancer often results from an impurity in the blood, inherited from generations back. Few people are entirely free from some taint in the blood, and it is impossible to tell when it will break out in the form of dreaded Cancer. What has appeared to be a mere pimple or scratch has developed into the most malignant Cancer.

"I had a severe Cancer which was at first only a few blotches, that I thought would soon pass away. I was treated by several able physicians, but in spite of their efforts the Cancer spread until my condition became alarming. After many months of treatment and growing steadily worse, I decided to try S. S. S., which was so strongly recommended. The first bottle produced an improvement. I continued the medicine, and in four months the last little seed dropped off. Ten years have elapsed, and not a sign of the disease has returned." R. F. WILLIAMS, Gillsburg, Miss.

It is dangerous to experiment with Cancer. The disease is beyond the skill of physicians. S. S. S. is the only cure, because it is the only remedy which goes deep enough to reach Cancer.
